CS-FC609

8-Inch Face Recognition All-In-One Machine

- Exclusive face recognition algorithm, accurate face recognition, face recognition time is less than 0.3s.
- 8-time IPS full-viewing angle high-definition display, image drag-free, no delay, H.265 coding format video circulation.Directly connect to NVR and other storage devices through ONVIF protocol.
- Support TF card storage, picture continuous storage for 1 year, video continuous storage for 1 month or longer (and optional TF cardcapacity).
- Support binocular live body detection, strong backlighting environment of the movement of people face tracking exposure.
- Outdoor P66 level waterproof, dustproof, unique anti-tampering alarm.
- Support card, face and combination of ways (standard IC, can be customized second generation ID card, ID, password, etc.)
