

GCF300ASNA/GCF300BSNA

- CADR=300m³/h, cover rooms up to 36m²
- 3 in 1 true HEPA filter: pre-filter, H13 HEPA filter, active carbon filter
- Remove allergen(pollen, pet dander, dust), smoke, common odors
- Built-in UV for anti-bacteria and anti-virus
- With filter replacement alert
- LED display, touch control
- Tri-color display(green/yellow/red) for real time air quality
- 3 working modes(auto/sleep/turbo)
- 5 fan speeds, 8h timer
- Professional and cleanable sensor provides accurate air quality monitor

Air quality Indicator with 3 COLOR LIGHTS

3 lights (green, yellow, red) show the air quality level

Indicator is green
PM2.5 ≤ 12 μg/m³

Indicator is yellow
13 μg/m³ ≤ PM2.5 ≤ 55 μg/m³

Indicator is red
PM2.5 ≥ 56 μg/m³

5 Modes for Selection

99.97%

Removal Efficiency of
Particulate Matter
(≥ 0.3 μ m)

Adopt H13 true-HEPA and
carbon filters for removing
allergen, dust, pet dander,
pollen, bacterial, smoke and
common odors.

UV LIGHT

Eliminates bacteria and viruses

PRE-FILTER

COMBO CARBON & H13
HEPA FILTER

Eliminates chemical odors, smoke and 0.3
microns airborne particles

Ultraviolet + Photocatalyst Deep Sterilization Function

Mercury-free environmental protection
ultraviolet LED lamp and titanium
nanotechnology, prevent airborne
bacteria, viruses, germs and mold spores.

Features

- Remove Efficiency of particulate matter
- Adopt H13 true-HEPA and carbon filters, removing bacterial ,allergn .etc
- UV deep sterilization function, prevent viruses, grems and mold spores
- 8 Hrs Auto Off timer setting
- All OFF touch light button design
- 3 lights (green, blue, red) show the air quality level
- Composite barrel type filter, convenient for replacement
- 5 speeds, 3 modes(auto, sleeping, turbo)
- Easy replace of filters and Filter change remind indicator
- CB available

Particulate matters CADR(m³/h)	300
evaporation	800ml/h
Dimension/Weight	306*264*590mm 13.5/15.7Kg
Loading Capacity/40HQ	945
