

AIR COOLER

KSWK-6001Dgl

Over 1100m³/h
high air volume

Four refilling
methods

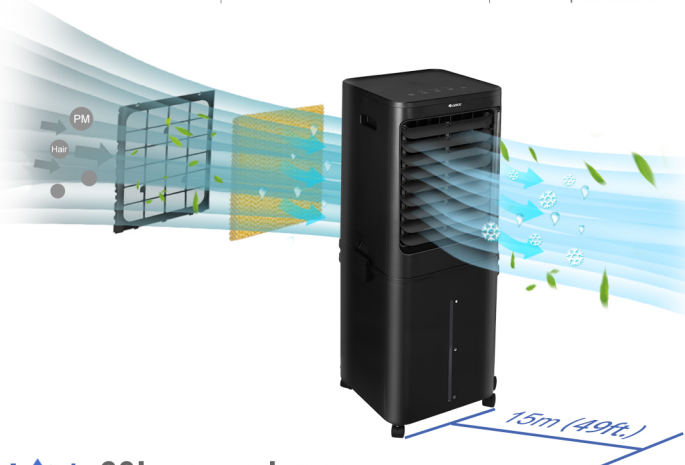

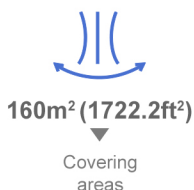

60L super
large water

User-friendly
and safe design

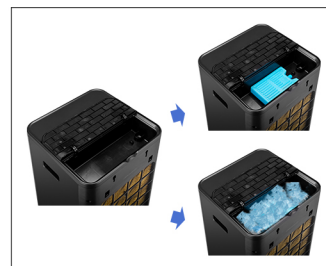

**Over 1100m³/h
high air volume**

Four refilling methods

Side refilling

Top refilling

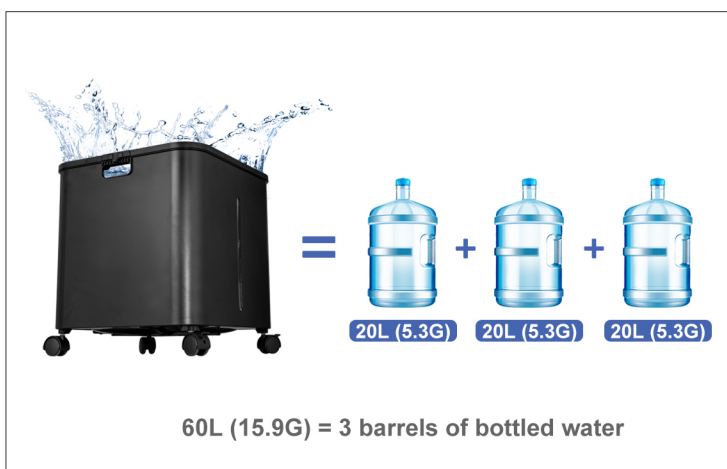

Automatic refilling

Split-tank refilling

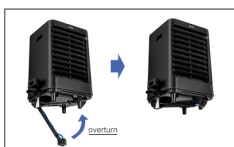

**60L super large
water tank**

**User-friendly and
safe design**

Power-off protection
upon low water

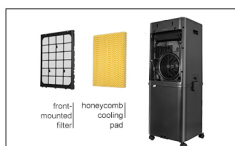

Pump protection device:
lifting and overturning

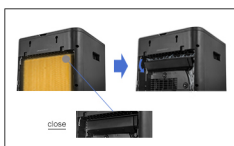

Power cord bracket and
remote controller storage

Easy storage: water tank
inverted on the unit body

Convenient to clean:
Removable wet curtain
water tank and
front-mounted filter

Honeycomb cooling pad
missing protection device:
prevent water splashing

Ball-bearing motor:
long service life and
multi-protection

Side handle and castors

Touch control
panel

LED display

4 fan speeds

15h timer
ON/OFF

Power-off
memory

Remote
controller

DC pump

Turbo blower

KSWK-6001 Dgl

- 60L water tank
 - Air volume: 1100m³/h
 - Evaporation capacity: 3200ml/h
 - Pure copper AC ball-bearing motor
 - Turbo blower system & DC pump & honeycomb cooling pad
 - 4 filling methods: side filling/top filling/automatic filling/split-tank filling
 - Higher loading capacity
 - Low water protection
- Touch control panel
 - LED display
 - 4 fan speeds
 - 15h timer
 - With power-off memory function
 - Remote control
 - Removable honeycomb cooling pad & water tank & pre-filters
 - Side handles and castors

Over 1100m³/h big air volume

15M
Wind travel distance

160m²
Area coverage

3-in-1
Cooling, humidification;
centrifugal fan

60L super large water tank

60L(15.9G)=3 barrels of water

Side refilling

Top refilling

Split-tank refilling

Features

- Centrifugal blower + Ball bearing Motor(100% copper)
- 60 liter water tank
- Detachable water tank for easy cleaning & refills
- Honeycomb cooling media
- Slim body and recessed handle design
- LED display & Remote control
- Power off memory function
- Touch control panel
- 4 speeds
- 15h timer
- Oscillation function
- Portable handle & castors for easy moving
- With 120° right&left swing angle (Auto)
- With 120° up&down swing angle (Manual)
- CB Certificate

Evaporation Capacity	3200ml/h
Air Volume (high speed)	1100m³/h
Unit dimension/Weight	395*405*980mm/
Loading Capacity	375/40HQ
