

# PAX SR EXT

## Wireless Outdoor Siren

- Adjustable alarm tone level
- Squawk functionality - Activation / deactivation tones
- LED Indicator light
- Internal metal cover

PAX SR EXT is a wireless piezo siren for outdoor usage. The siren is compatible for operation with:

- BRAVO Next wireless control panel, for building of fully wireless security systems.
- PAX WL Expander module, for building of hybrid security systems with Eclipse series control panels.

PAX SR EXT is equipped with sound and LED indication for announcing of alarm events, inner metal cover and bidirectional tamper for higher protection.

The siren has a flat plastic cover, which is especially suitable for company sticker or logo.

### Features

- Bi-directional type of wireless communication
- Jamming detection and communication channels encryption
- Signal strength indication (RSSI)
- Two-way tamper switch for self-protection of the box
- Squawk functionality - Activation / deactivation tones
- Internal metal cover for better protection
- Plastic cover for protection of the electronic components
- Adjustable alarm tone volume – 4 levels

### Technical Specifications

Operation frequency:	~ 868MHz
Communication type:	Bi-directional
Radio distance (open space):	up to 1500m
Sound pressure level	102db@1m
Max. Alarm tone duration (programmable)	1 - 3 min
Tone frequency range	2700-3300Hz
EMC Immunity	EN 50130-4
Battery pack	4x3V Li - size A
Battery life	~ 7 years
Operating temperature range:	from -25°C to +65°C
IK protection rating	IK08
IP protection rating	IP45
Enclosure box:	ABS plastic, white
Dimensions	309 x 197 x 40 mm
